

Query and User Intent	Result Block and LP, Needs Met Rating, Page Quality Rating	Explanation
<p><b>Query:</b> [how many octaves on a guitar]</p> <p><b>User Intent:</b> Find out the number of octaves on a guitar.</p>		<p><b>Needs Met:</b> This block shows the number of octaves on a piano, not a guitar. Even though this SCRB has a link to a high quality landing page about pianos, it is irrelevant to the query. Useless results are useless. This result <b>Fails to Meet</b> the user intent.</p> <p><b>Page Quality:</b> There is a lot of helpful MC on the landing page. The page has medium to high E-E-A-T. <b>Medium+</b> to <b>High</b> is an appropriate rating.</p>
